Why CIE Online?

- Face to face 1:1 lesson once a week with a tutor
- 9 units of language and skills
- Customised lessons
- Personal tutor to answer your questions
- 12 weeks: 10 (flexible) hours per week

If you have studied at CIE before you can study with teachers that you know and trust. Alternatively, if you are signing up with CIE for the first time you will have an initial tutorial to get to know the teacher, where you will talk about how you plan to progress through the course from where you are.

About

It starts with a placement test. The result of this 'smart' test will automatically provide you with materials that are at your level. This 12 week course is aimed at taking you through a complete level. You have a (9 unit) study plan which will practise your: writing, reading, listening and web skills.

The result of this 'smart' test will automatically provide you with materials that are at your level

You can access CIE Online from wherever you are - there is also a mobile friendly version of the site.

About

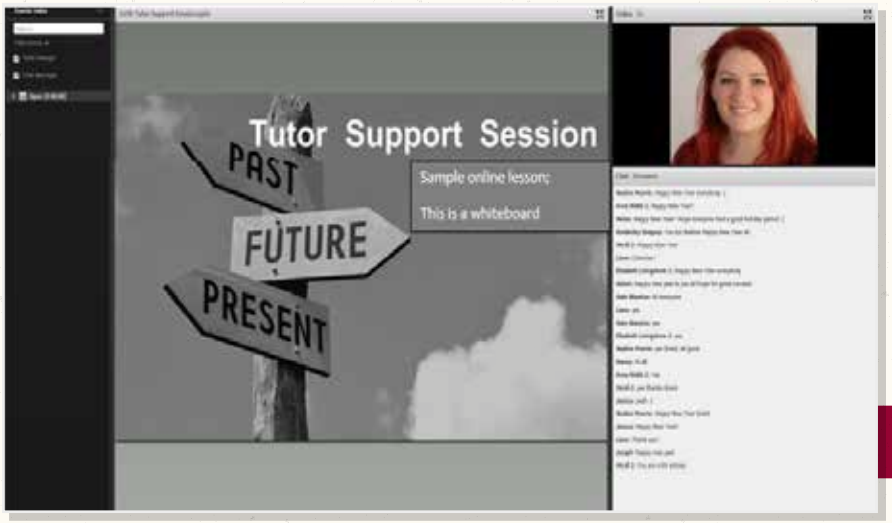
You will be assigned a teacher who will work out a more detailed plan with you in a face-to-face online 'meet and greet' on the first day of the course. You and the teacher will be able to keep track of how much time you have spent on the platform and also see how you are scoring on your study plan activities.

Throughout the course the teacher will: monitor your progress, assign extra work when necessary, answer emails, mark writing when assigned (at least weekly), discuss learner plans (i.e. tutorial) when necessary, customise learning when necessary*and conduct weekly face-to-face encounters.

Throughout the course the teacher will conduct weekly face-to-face encounters

We will do everything we can to get you through the course, but self-study courses do require your discipline and application. We expect you will need to do at least 10 hours work per week to complete this course (in addition to the 1 hour of face-to-face). This course is administered and monitored by CIE Oxford and if you manage to complete the coursework and progress checks successfully then we will give you a certificate of completion which will include your Common European Framework (CEFR) level.

*The course is divided into 9 units but there is some flexibility so, for example, if you inform your teacher in advance (or during the first online encounter) about your own syllabus (at school for example) the teacher can point you to the unit related to you studies and this way it may be more useful for you to support your own learning at the correct stage.



You will be assigned a teacher

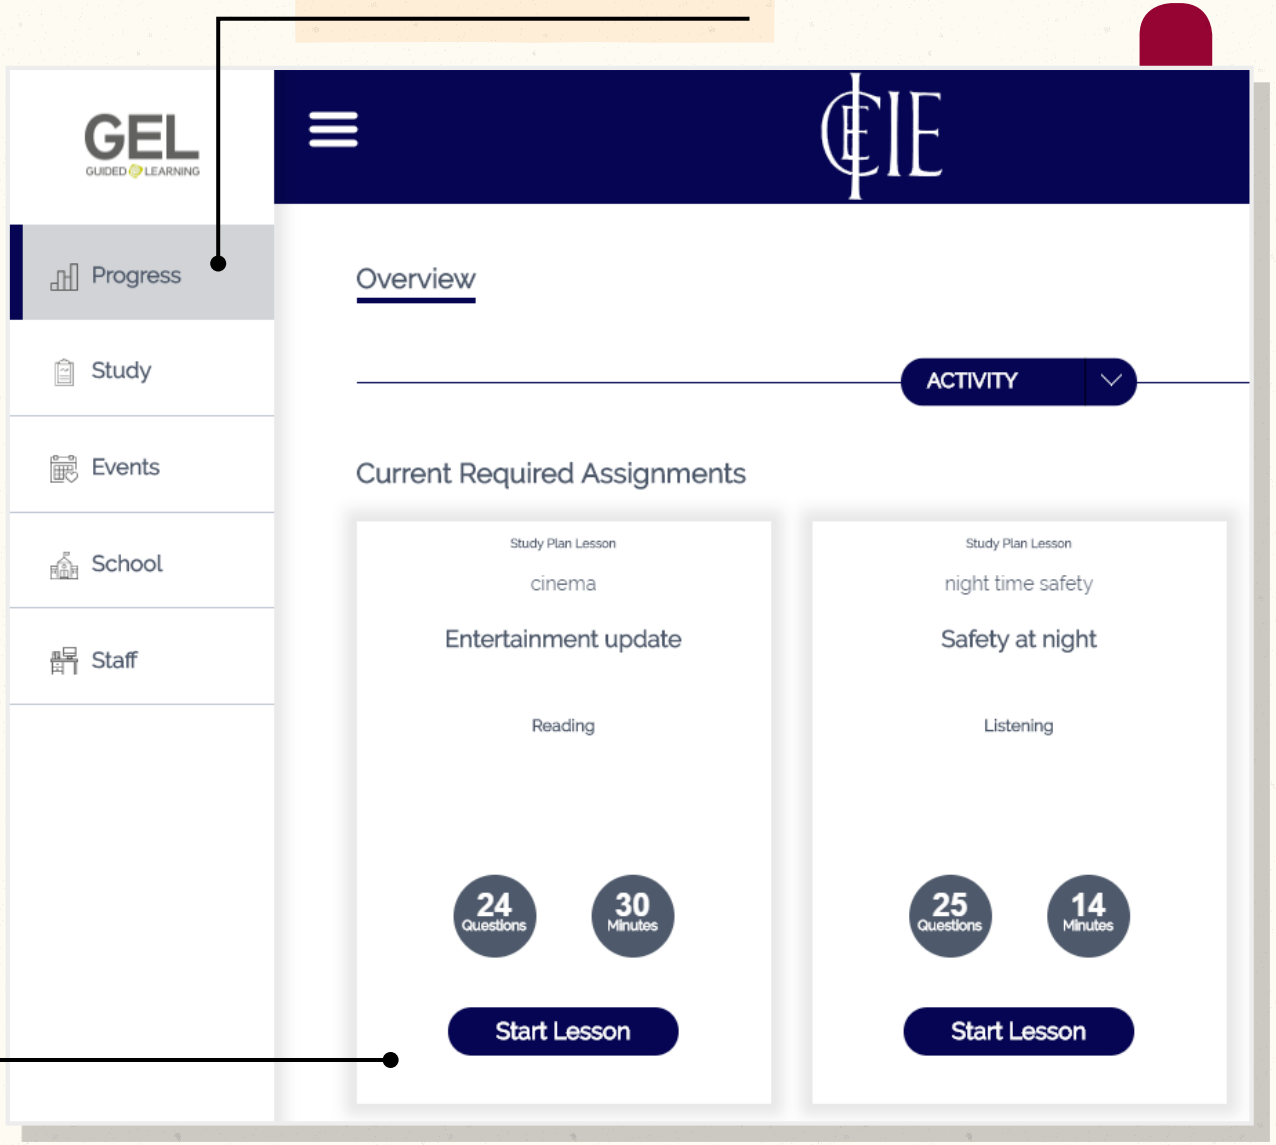
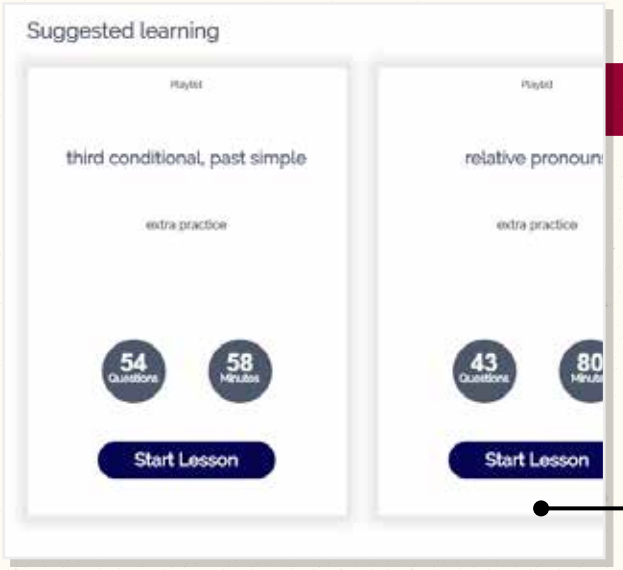
Progress

The navigation pane is accessible from any page on the platform. Here you can access your progress, study and school pages.

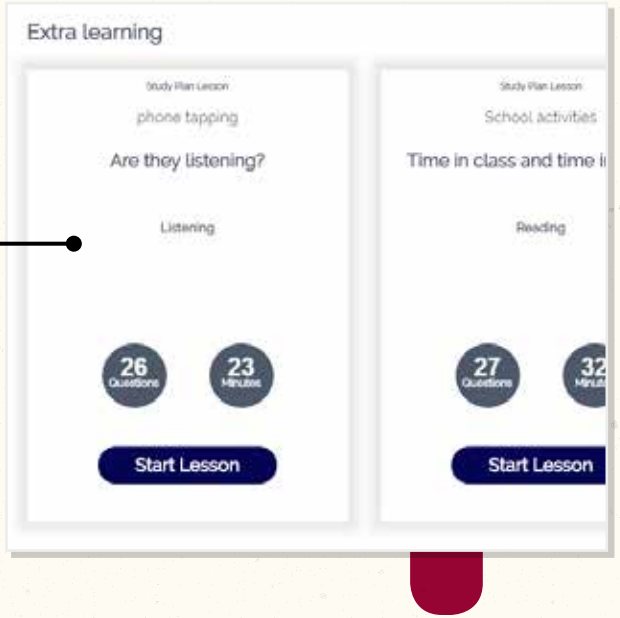


In the progress tab you can access assignments that have been sent to you from the resources on the site which your teacher requires you to complete.

Progress

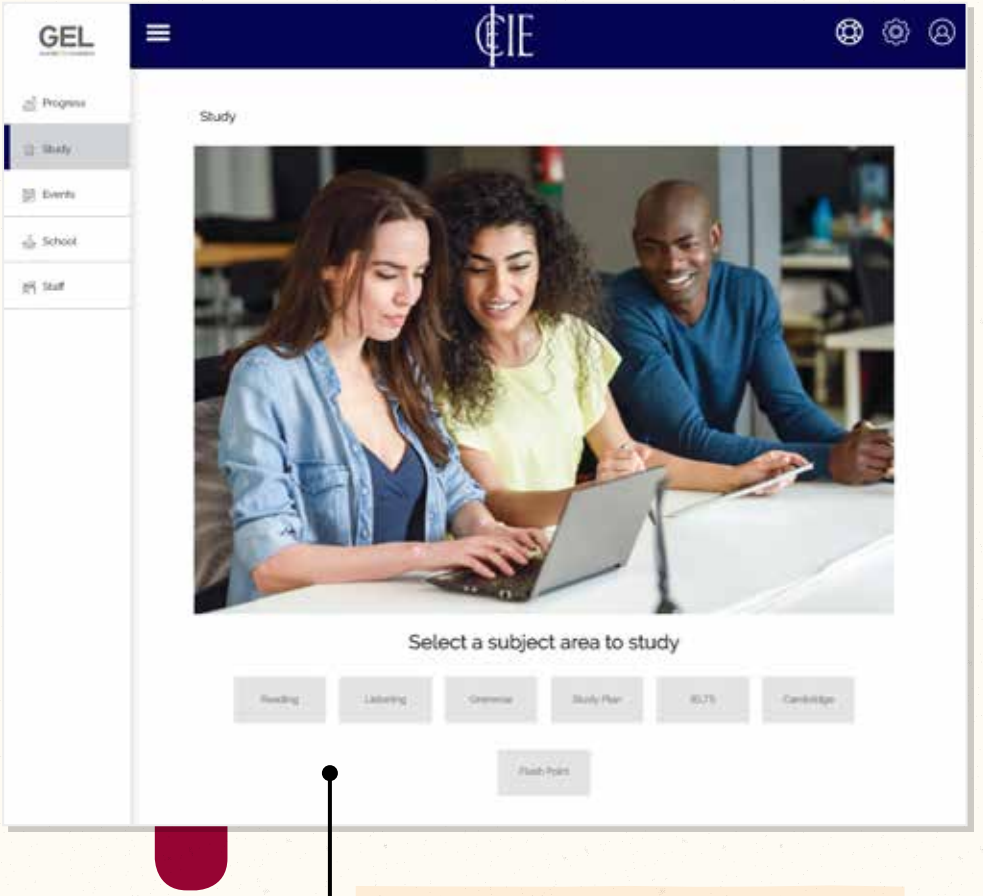


As well as required assignments there is also suggested learning pages that may be on points that had been discussed in the face-to-face meeting with the teacher, on a point that needs to be reviewed.



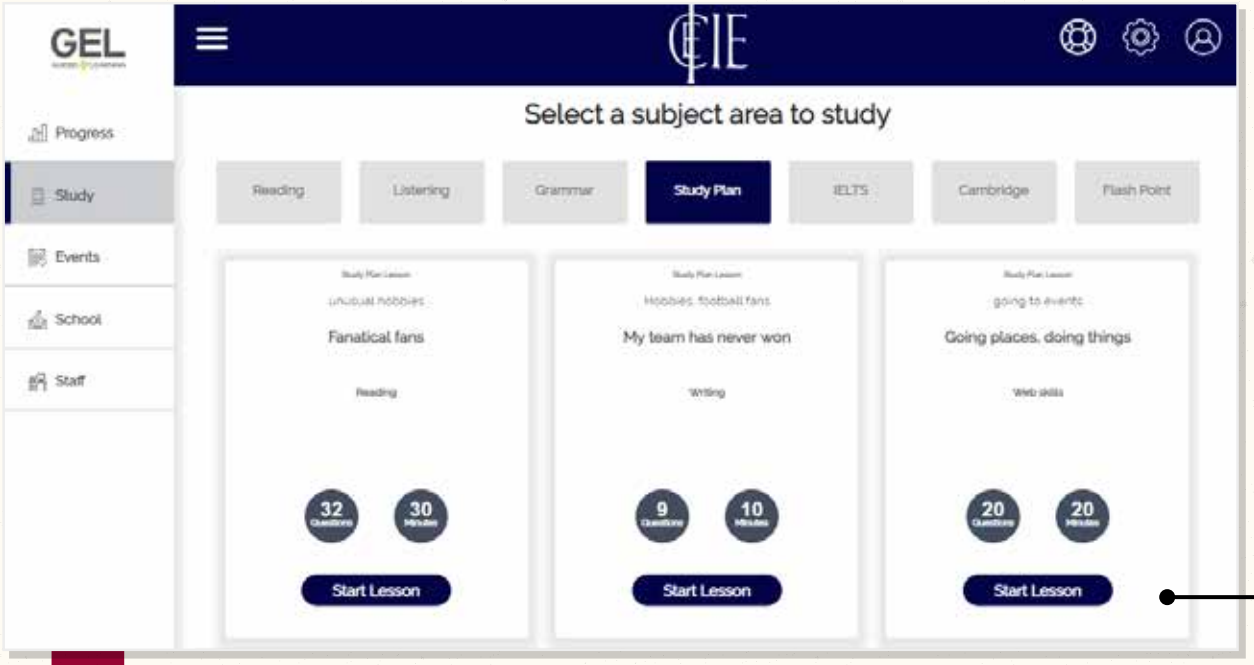
The site also suggests other assignments appropriate to your level and needs.

Study



On the Study page you can access your study plan, grammar, listening, and reading resources as well as extra reading materials through the flash point lessons. Flash point lessons use real news sources e.g. The Times, alongside comprehension and vocabulary questions to engage you in language by using current events.

Study & School



When you select the study plan button you will see all of the lessons that are available to you at your level. For each lesson you can see how many questions there are and how long the lesson is predicted to take. If you cannot finish the lesson in one go, you can simply close the page and return to it when you have time, the site will remember where you reached and you can pick up from there.

An important factor to consider with any remote online course is contact between you and the school. If you have a question or concern about your course or even about your teacher, you can contact CIE via the online site in the "School" tab. You can make contact about anything, from questions about your level to administrative questions about extending your course.

To join a course, you will need to go to the CIE Oxford homepage: www.cie-oxford.com and click the 'CIE Online' tab on (centre left)! We have worked hard to develop a course we believe is interesting, useful and will give you an opportunity to study without the expense of a travel abroad programme.
